FOR IMMEDIATE RELEASE

ORBUS DISPLAY GROUP LAUNCHES FULL CUSTOM DIVISION
Origin Provides Custom Solutions to the Tradeshow Industry With Reliable
Orbus Sales and Savings

Orbus Display Group is adding a new division with the introduction of Origin, a full custom modular provider. Still based out of Illinois, the division will go live on January 4, 2010. There has been a gap in the industry for affordable custom displays, and Origin believes they have found a way to fill it.

“Origin adds new dimension and opens doors for The Orbus Display Group as well as Orbus customers.” said Giles Douglas, President and CEO of the Orbus Display Group. “We have had requests from many of our customers to produce more customized solutions, so Origin is really filling a gap in our current capabilities and complementing them well.”

Origin brings unbranded custom solutions that fit needs, concepts and budgets with project management and design teams that have been developing custom displays for years. Though a new endeavor, the Origin manufacturing team has the advantage of 28+ years of experience. Using the most advanced materials and finishing available, products include, but are not limited to: custom fabric structures and extrusion based exhibit solutions, linking panels, custom back walls and flooring, hanging structures, aluminum truss, lighting, staging, and grand format inkjet graphics.

The Orbus Display Group includes Orbus365 -- modular portable display systems, SignPro Systems -- modular way finding signage, and now with the inclusion of Origin -- custom modular solutions, The Orbus Display Group aspires to become the ultimate one stop source for the trade.
